

FACTORY ACCREDITED:

TECHNICAL DATA

Size Range:	10mm - 50mm
Suitable for:	Water, air and oil under 20 CST
Maximum Temperature:	120°C (fluid only)
Voltages available:	24VAC, 240VAC, 12VDC, 24VDC, 110VAC
Connections:	BSPF (standard) NPT or flanged (optional)

The AZS range is a direct acting solenoid valve that will work from zero (0) pressure and is available in brass or stainless steel. Models include AZS which is normally closed (energise to open) or AZSH normally open (energise to close).

All models feature investment cast body, interchangeable coils and Viton diaphragm.

FEATURES

- Normally closed & normally open models.
- Brass or stainless steel body materials.
- Viton diaphragm, others available on request.
- LED din plug available.
- All voltages interchangeable.

PRESSURE LOSS CHART

AZS-316

AZSH

PARTS LIST

DIMENSIONS

MODEL	FUNCTION	BODY MATERIAL		SIZE (MM)	L x H (MM)	CV FACTOR
AZS & AZS-316	Normally Closed	AZS (Brass)	AZS-316 (SS316)	10	69 x 107	4.8
				15	69 x 107	4.8
				20	73 x 115	7.6
				25	99 x 121	12
				32	112 x 148	24
				40	123 x 158	29
AZSH & AZSH-316	Normally Open	AZSH (Brass)	AZSH-316 (SS316)	10	69 x 130	4.8
				15	69 x 130	4.8
				20	73 x 138	7.6
				25	99 x 146	12
				32	112 x 192	24
				40	123 x 203	29
50	165 x 226	48
